

14/10/19:  
 Round Trip by Craig Kasper  
 Theme: To The Nines

Draw a single loop in the grid which may cross itself orthogonally, but otherwise does not touch or retrace itself. The clue numbers to the left/right of the rows indicate the number of squares visited by the nearest section of the loop that travels horizontally in the rows. The clue numbers to the top/bottom of the columns indicate the number of squares visited by the nearest section of the loop that travels vertically in the columns.

**Answer Entry:** Enter the number of empty squares for each row from top to bottom, followed by a comma, and then the number of turns for each row from top to bottom.
