# 14/03/05: <br> Loop the Loops by Prasanna Seshadri Theme: Quadrants 

Rules: Combination of Slitherlink and Masyu Rules. (Draw a single closed loop by connecting neighboring dots horizontally or vertically so that each number represents the number of adjacent edges used by the loop. The loop passes through all circles. It must go straight through the white circles with at least one side turning at the next dot; it must turn at the black circles and then go straight through the next dot in both directions.)
