## 14/04/28:

## Double Minesweeper by Serkan Yürekli Theme: Symmetry and Logic

Rules: Place either 0, 1, or 2 mines into each empty cell so that each number represents the total count of mines in all neighboring cells, including diagonally adjacent cells.

ANSWER ENTRY: For each cell in the marked rows, enter the number of mines $(0,1,2)$ for each cell. Enter 0 if the cell is a number cell. Separate each row's entry from the next with a comma. In this example, the answer is " 022102,002000 "
A

|  | 4 |  | 4 |  | 3 |
