

14/06/07:

Light and Shadow by Serkan Yürekli

Theme: Clue Symmetry and Logic

Rules: Divide the grid into gray and white regions, each containing exactly one number and with an area equal to that number. Numbers in white cells are part of white regions; numbers in gray cells are part of gray regions. Same colored regions cannot share an edge.

ANSWER ENTRY: Enter the length in cells of each group (white and gray) in the marked rows. Separate the rows with a comma. For the Example, this is "13,121".

A							7		
			2						
B	15					5			5
		4							
					7			3	
	7			10					
							3		
	4			3					18
						5			
C			2
