Theme: Clue Symmetry and Logic

A 10x10 grid with a thick border. The grid contains numbers in some cells and letters A, B, C, and D in others. The numbers are: Row 1: (1,1)=3, (1,3)=3, (1,5)=1, (1,10)=4; Row 2: (2,10)=4; Row 3: (3,10)=2; Row 4: (4,1)=1; Row 5: (5,1)=2; Row 6: (6,1)=3, (6,6)=1, (6,8)=2, (6,10)=2. Letters A, B, C, and D are in the first column of rows 2, 3, 4, and 5 respectively. The grid has a pattern of thick and thin lines forming a complex shape.

	3		3		1					4
A										4
B										2
C	1									
D										
	2									
	3					1		2		2
