

15/11/07:

Tapa (Pentomino) by Serkan Yürekli

Theme: Clue Symmetry and Logic

Rules: Standard Tapa rules. Also, the Tapa wall in this puzzle is made using one of each pentomino given below the grid with no overlaps. Rotations and reflections are allowed. (Note: There is no P pentomino here because it would violate Tapa rules).

		3					2			
									5	
						5				
A		6								
							5			3
					1 ₁ 1 ₁					
	4		2							
B								7		
C					2 ₄					
		7								
			1 ₁					1
