16/09/12:
Hundred by Thomas Snyder
Theme: Unique Digits

Add digits to some cells so each cell contains a one- or two-digit number.
The sum of the numbers in each row and in each column must be 100.
ANSWER ENTRY: Enter the numbers from left to right, starting with the top row, then the middle row, and then the bottom row.
Separate each row with a comma.

1	4	6
8	5	7
2	9	3
