

16/10/07:

## XV Sudoku by Serkan Yürekli

### Theme: Anti-XV (for Phleb)

Rules: Classic Sudoku Rules. Also, when the numbers in two cells sharing an edge add up to 5, a V is marked on that edge; when the numbers in two cells sharing an edge add up to 10, an X is marked on that edge. (For clarity, as no symbols appear in the grid below, there are never any edge-adjacent cells that sum to 5 or 10.)

B

4			3		8			
							7	
	2				5			
2								6
6				3				5
5								8
			4				5	
	9							
			6		2			1
