

17/05/12:

Castle Wall (Hexagonal) by Serkan Yürekli

Theme: Clue Symmetry and Logic (for Chris Green)

Rules: Draw a single closed loop (without intersections or crossings) passing through some empty cells in the grid. The grid contains some bordered or colored cells that cannot be part of the loop. Black cells must be outside the loop; white cells (with heavy borders) must be inside the loop. Numbers and arrows refer to the total sum of the lengths of loop segments in the given direction.

(An equivalent way to understand these values is to count the number of cell borders crossed by the loop in that direction.)
