## Tapa (Borders) by Palmer Mebane

### Theme: Antisymmetric Borders (for Veep)

**Rules:** Standard Tapa Rules. Also, if two cells are separated by a thick border, this means that exactly one of those cells is shaded and the other is unshaded.

(Cells missing a border that appear as larger shapes are entirely shaded or entirely unshaded. The count of shaded cells is always based on 1×1 squares, meaning if a “large” cell with missing borders occupies multiple 1×1 squares around a clue it would contribute 2 or more cells if shaded for that clue.)
