# 2018/03/02:
Tapa (Total False) by Murat Can Tonta
Theme: Equal Representation

Rules: Variation of Tapa. Every given clue is lying in two ways: first, the number of given clues in that cell is false; second, the value of any given clues is not true for any part of the Tapa around that cell. For example, a 3 clue could actually indicate 24, but it could not indicate 2 (same number of clues) or 23 (the digit 3 appears). 0 is not a valid clue for this Tapa.
