Consecutive Pairs Sudoku by Akash Doulani

Theme: Slanting Lines

Rules: Standard Sudoku rules. Additionally, if a gray circle is given between two adjacent cells, then the two numbers in those cells must be consecutive. (Note: not all gray circles are given; adjacent cells without a circle may contain either consecutive numbers or nonconsecutive numbers.)

The image shows a 9x9 grid for a Consecutive Pairs Sudoku puzzle. The grid is divided into 3x3 sub-grids by thick lines. The numbers and gray circles are distributed as follows:

		1		3		2		
A	●							●
	●			9			●	
		●				●		
	5		●			●		1
		9					8	
	●		8			4		●
		●					●	
		●		3		9		
B	4		●			●		9
		6					3	

Gray circles (●) are located at the following (row, column) coordinates: (2,1), (2,9), (3,1), (3,8), (4,2), (4,7), (5,3), (5,6), (6,1), (6,9), (7,1), (7,8), (8,2), (8,7), (9,3), (9,6).
