2019/09/14:
Slitherlink (Pentomino, Missing) by Freddie Hand
Theme: S for Slitherlink

Rules: Draw a set of eleven pentomino-shaped loops (i.e., all but one of the given shapes) consisting of vertical and horizontal segments between the dots. Numbers inside a cell indicate how many of the edges of that cell are part of the loops. The pentomino-shaped loops cannot touch each other, not even diagonally, but may be rotated or reflected.

Example:
