Nonconsecutive Sudoku by Thomas Snyder

Theme: Mostly logic (also hidden date)

	1	4						
				1				
A						3	1	
			5					
	4			2			7	
					6			
B		3	1					
				8				
						4	6	

14/02/01:

Araf by Serkan Yürekli

Theme: Clue Symmetry

Rules: Divide the grid into some regions formed of edge-adjacent squares. Each cell is part of one region, and each region should contain exactly two given numbers. Each region must have an area that is strictly between those numbers. ANSWER ENTRY: Enter the number of cells in each connected group (between bold lines) in the marked rows. For the example, this is "34,121111,4111".
