## Tapa-Like Loop by Prasanna Seshadri Theme: Clue Symmetry and Logic

Rules: In this variation of Tapa, the wall is in the form of a single non-intersecting loop. Clues inside the grid represent the number of neighboring cells visited by the loop; if there is more than one number in a cell, each number should be represented with a separate loop segment. There is no $2 \times 2$ rule of Tapa in this puzzle.
ANSWER ENTRY: Enter the length in cells of the horizontal loop segments from left to right in the marked rows, starting at the top. Separate each row's entry with a comma. In this example, the answer is " 11,12 ".

A

|  |  |  |  |  | ${ }^{1} 2$ |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  | $22^{2}$ |  |  |  |  |  |  |
|  |  |  |  |  |  |  | ${ }_{1}^{1} 1$ |  |  |
| A | ${ }^{2} 4$ |  |  |  |  |  |  |  |  |
| B |  |  |  |  |  |  |  |  |  |
| C |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  | $1_{3} 3$ |  |
| D |  | $1_{3}{ }_{3}$ |  |  |  |  |  |  |  |
|  |  |  |  |  |  | $1_{2}{ }^{2}$ |  |  |  |
|  |  |  |  | 3 |  |  |  |  |  |

## 14/09/03: <br> Slitherlink by Thomas Snyder Theme: 0123 and Antisymmetry

14/09/04:

## Masyu (Deformable) by Murat Can Tonta Theme: Dominoes

Rules: Standard Masyu Rules. Also, some white circles must become black circles for this puzzle to have a valid solution.

## 14/09/05:

## Slitherlink (Sheep and Wolves, no $2 \times 2$ ) by Hans van Stippent <br> Theme: The Lone Sheep

Rules: Standard Slitherlink rules. Also, all sheep (marked by an S) must be inside the loop and all wolves (marked by a W) must be outside the loop. Also, no $2 \times 2$ square of cells can be entirely inside the loop, or entirely outside the loop.
