Ripple Effect by Grant Fikes
Theme: Clueless

Rules: Place a number into each cell so that each region contains the numbers 1 to N, where N is the size of the region. A cell with the number M must have at least M cells between it and any other instance of the same number M in that row or column.

ANSWER ENTRY: Enter the numbers in each cell from left to right in the marked rows, separating the two rows with a comma.

 Pentominous by Grant Fikes
 Theme: Logical

Divide this grid into 20 regions each containing 5 cells. Regions with the same shape (including rotations/reflections) cannot share an edge. A cell with a letter in it must be part of the pentomino shape normally associated with that letter; an inventory of pentominoes is given below the puzzle.
