# 17/08/28:
## Yajilin by Grant Fikes
Theme: One, Two

17/08/29:
Double Yajilin by Grant Fikes
Theme: One, Two

Standard Yajilin Rules, except that instead of blackening single cells, blacken in dominoes (1×2 rectangles). Clues indicate the total number of dominoes (not the total number of cells) that are shaded in the given direction.
17/08/30:
LITS by Grant Fikes
Theme: Logical

17/08/31:
Double LITS by Grant Fikes
Theme: Logical

Standard LITS rules, except that each region must contain two shaded tetrominoes.
These two tetrominoes within a region cannot touch each other,
and can be the same or different shapes.

17/09/02:
Pentominous (Borders) by Grant Fikes
Theme: Logical

Divide this grid into 45 pentominoes each containing 5 cells. Pentominoes with the same shape (including rotations/reflections) cannot share an edge. Some borders between pentominoes are already drawn.
