

2018/04/21:  
Yajilin (Regional) by Murat Can Tonta  
Theme: Clue Symmetry and Logic

**Rules:** Variation of Yajilin. Blacken some white cells and then draw a single closed loop (without intersections or crossings) through all remaining white cells. Blackened cells cannot share an edge with each other. A number in a region indicates how many white cells must be blackened. Cells with number clues may be blackened.

## Slitherlink by Serkan Yürekli

### Theme: Road Trip across America

Rules: Standard Slitherlink Rules, on an irregular grid that can only follow the lines.  
Ignore the gray letters while solving.

Answer Entry: Enter the values (number of fences) for the light letters A-G in order

# 2018/12/22: Spiral Galaxies by Grant Fikes

Rules: Standard Spiral Galaxies rules (treat white and black circles the same when solving). After completing the grid, there is a secret message to find.

2018/05/25:  
Outside Nanro by Carl Worth  
Theme: Bisection

**Rules:** In this variation of Nanro, numbers are now given outside the grid. Each number clue represents the first number placed inside the grid in that row or column in the corresponding direction.

## Tapa (Twopa) by Prasanna Seshadri

### Theme: Nine Clues

Rules: Variation of Tapa. There are two grids to solve simultaneously; each number clue must have a different arrangement of shaded cells in its eight neighboring cells from its counterpart clue in the other grid.

Answer Entry: Standard answer entry, except the “A/B/C” grid is the grid with the longer entry for its first row. (The “D/E/F” grid has the shorter entry for its first row.)

A								
	3 <sub>3</sub>			1 <sub>2</sub> 1			2 <sub>3</sub>

# Skyscrapers (with Sum Baskets) by Palmer Mebane

## Theme: Fours and Fives

Rules: Standard Skyscrapers rules (using digits 1 to 7). Also, there are some regions ("Sum baskets") in the grid marked by dashed lines. The sum of the buildings in these sum baskets is given. Building heights can repeat within a basket.

2018/08/11:  
 Kakuro (Gapped) by Grant Fikes  
 Theme: Clue Symmetry and Logic

**Rules:** Standard Kakuro Rules. Also, some cells may remain empty but empty cells cannot share an edge with other empty cells.

2018/05/16:  
Thermo-Skyscrapers by Murat Can Tonta  
Theme: Clueless?

**Rules:** Standard Skyscrapers rules. Also, as in Thermo-Sudoku, digits must be strictly increasing in all thermometer shapes from round bulb to flat end.

**Note that the lower-left corner thermometer is four cells long;** a digit should go in the bulb, the bend, and the two other cells under grid columns 1 and 2. The digit in the bend is not a Skyscrapers clues.

2018/02/24:  
TomTom (Mystery) by Thomas Snyder  
Theme: 300 Posts

Rules: Standard TomTom rules, except the digit set is unknown.

{?, ?, ?, ?, ?, ?, ?, ?, ?} = 9 distinct non-negative integers

# Consecutive Sudoku by Fatih Kamer Anda

## Theme: Pi

**B**

The grid is a 9x9 square divided into a 3x3 subgrid in the center. The subgrid is defined by the intersection of the 4th, 5th, and 6th rows and columns. The numbers are placed in the following cells:

- Row 1: Column 5 (3), Column 6 (1), Column 7 (4)
- Row 4: Column 4 (1), Column 6 (5)
- Row 7: Column 3 (9), Column 6 (2), Column 7 (6)
- Row 8: Column 1 (5), Column 4 (3)
- Row 9: Column 7 (5)

Shaded gray cells are located at the following coordinates (row, column): (3, 3), (3, 4), (3, 5), (3, 6), (4, 2), (4, 5), (5, 2), (5, 5), (6, 3), (6, 6).
