

Double Minesweeper by Serkan Yürekli

Rules: Place either 0, 1, or 2 mines into each empty cell so that each number represents the total count of mines in neighboring cells, including diagonally adjacent cells.

		3	4	3	5		
	5					5	
3			7	5			3
3		4			6		3
4		4			7		3
3			6	6			4
	6					5
