		5						5
						7		
	3							
7				7				7
							3	
		7						
5						11		
	2		2					2

Primes

Cave (Hex) by Chandrachud Nanduri

Rules: Standard Cave rules. (The puzzle is on a hexagonal grid and cells now see in a maximum of six possible directions.)

Central Diamond

Cave (Product) by Thomas Snyder

Rules: Variation of Cave rules. Each clue represents the product of the # of row cells visible (including the cell itself) with the # of column cells visible (including the cell itself).
