

Earthquake Relief Sudoku by Serkan Yürekli

Rules: Standard Sudoku Rules.

- 10 cities have been affected by two major earthquakes (7.7 and 7.6 on the Richter Scale) in Turkey. They are listed below the grid. Place each city's name along a gray line, one letter per cell. For lines without arrows, the city can be read in either direction; otherwise it must be read in the arrow's direction.
- The sudoku works as follows: If a cell's letter is included in the spelling of one of the digits 1 to 9 (ONE, TWO, ...), such a digit is a valid candidate for that cell. If a cell's letter is not included in the spelling of ANY of the digits 1 to 9, any digit can be placed in that cell. A listing that follows these rules is given with the puzzle.
- One of the red (earthquake) lines is to be filled with 7, 7 and the other with 7, 6.

E = 1, 3, 5, 7, 8, 9

F = 4, 5

G = 8

H = 3, 8

I = 5, 6, 8, 9

N = 1, 7, 9

O = 1, 2, 4

R = 3, 4

S = 6, 7

T = 2, 3, 8

U = 4

V = 5, 7

W = 2

X = 6

{A, B, C, D, J, K, L,
M, P, Q, Y, Z} = 1-9
