

# Consecutive Palindromes Sudoku

## by Bill Murphy

Rules: Insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region. Numbers equidistant from the center of a line must be 1 away in value from each other (e.g., at the top, R1C1 & R1C9, R1C2 & R1C8, R1C3 & R1C7, R1C4 & R1C6 are all consecutive pairs of numbers on that line).

1		9			3		7	
								5
7			8				2	
	4				1			8
4								
	8		5			4		1
