

A Story of Self-setting Sudoku #4.75

by Thomas Snyder

We've gotten the red flags outside of the grid but still cannot make sense of them. It may be tied to that shiny yellow number in the corner, another survivor from yesterday's expanded challenge. The rest of this space is from the new training ground we traveled to. Who knew training reasoning models with just 50 word tokens could lead to such amazing intelligence?

Given our rate of progress, we'll show off "Full Setting Automation" by tomorrow!

1	2	3						7
			1	2	3			
						3	1	2
	1	4		5		6		
3								1
		2		1		4	5	
7	8	9						
			9	6	7			
4						5	7	9

→ 4 v 4
