

Disjoint Groups Sudoku by Philip Newman

Rules: Insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region. Also, numbers cannot repeat in the same relative position (e.g., the upper-left cell or center cell) within different regions.

		4		2			9	
			1			4		3
5							2	
	3			1				
6			8		2			4
				9			7	
	8							5
7		6			9			
	1			8		6
