

# No Three in a Row Sudoku by Bill Murphy

Rules: Insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region. Also, there may not exist a run of three or more cells horizontally or vertically in the grid that all contain numbers of the same parity (i.e., even or odd).

2		4				6		9
8				5	9	2		4
						7	2	
5								1
	1	3						
6		8	5	3				2
7		2				4		8
