

The Trouble With Tribbles by Thomas Snyder

Rules: Insert a number from 1 to 9 into each white cell so that no number repeats in any row, column, or bold region.

The trouble with tribbles is that their trilling seems to have a tranquilizing effect on the human nervous system. Fortunately, I am immune to this effect and I find this puzzle to be no tribble at all.

	6					4		1
		4	9		2			
				5				9
4			6				3	
	1			2			7	
	3				8			5
7				9				
			7		1	8		
3		1					6
