Bust Sudoku by Philip Newman

Rules: Insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region. Also, the clues outside the grid are inspired by Blackjack and show when a player has gone "Bust". Specifically, for a clue N, the sum of the first N numbers in that direction in that row or column is larger than 21, but this is not true for the first N-1 numbers which will have a sum of 21 or less. (In this puzzle, for example, the clue at the top of column 8 means the sum of R1-5C8 > 21 but the sum of R1-4C8 is ≤ 21.)
