

# Step by Step Sudoku by Philip Newman

Rules: Insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region. Also, all arrows must be connected in a single cycle traveling around the grid; the number placed in each arrow indicates the number of cells away the next arrow visited in the cycle is.

	8	7						
6		↓	→		1	2	←	
5	→	→	3	↓			4	
	↓	1	2			9		←
		→		4				↑
	3							
	2		9					
	↑	4						
			↑	←
