

# Anti-Knight Palindrome Sudoku by Philip Newman

Rules: Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Numbers cannot repeat in any cells separated by a chess knight's move. Also, the numbers along each gray line form a palindrome (i.e., read the same forwards and backwards).

	x		x	
x				x
		1		
x				x
	x		x
