

XIIIVIII Pairs Sudoku by clover!

Rules: Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Whenever an XII or VII, reflecting the numbers 13 or 8 in Roman numerals, is placed on the edge between cells, the numbers in the two adjacent cells must sum to exactly 13 or 8. (Pairs of cells without an XII or VIII can have any sum value.)

VIII			6	7	8			
	VIII					7	9	8
VIII								
	VIII			XIII				
		VIII			XIII			
			VIII			XIII		
							XIII	
1	5	2				XIII		
			5	6	1		XIII
