

Consecutive Clones Sudoku by Bill Murphy

Rules: Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Additionally, for each shaded, connected shape ("clone") in the grid, numbers in the same position must differ by exactly 1 (i.e., be consecutive). (For example, because R4C5 = 2, R8C5 must contain either a 1 or 3.)

		2		5		8		
	5		2		8		7	
		6		2		7		
	3		4		7		2	
	7		8		2		4
