

Little Killer Sudoku by Bill Murphy

Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Numbers along indicated diagonals must sum to the given total outside the grid.

The grid is a 9x9 Sudoku with bold 3x3 regions. The clues are as follows:

- Top row: 9 (diagonal down-left from R1C3), 10 (diagonal down-left from R1C4), 11 (diagonal down-left from R1C5)
- Right side: 12 (diagonal up-left from R3C9), 13 (diagonal up-left from R4C9), 14 (diagonal up-left from R5C9)
- Left side: 8 (diagonal down-right from R4C1), 18 (diagonal down-right from R5C1)
- Bottom row: 17 (diagonal up-right from R8C6), 16 (diagonal up-right from R8C7), 15 (diagonal up-right from R8C8)
