

Sum Next to Nine Sudoku by clover!

Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Clues outside the grid indicate the sum of the number(s) immediately adjacent to the 9 in that row or column. For instance, R8C7 and R8C9 sum to 6. If there is only one number next to 9, the outside clue gives the value of that number.
