

## Encaged Four Sudoku by clover!

Insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region. Also, all fours are encaged by odd numbers; this means that around the fours all orthogonally adjacent cells must be odd.

6		8	3	5	7			2
								9
2		3			6			
1					8			
3								
5		2	6					
								8
8	3					2		6
