

X-Sums Sudoku by clover!

Standard Sudoku rules (insert a number from 1 to 8 into each cell so that no number repeats in any row, column, or bold region). Also, the clues outside the grid indicate the sum of the first X numbers placed in the corresponding direction, where X is equal to the first number placed in that direction (e.g., if R8C7 is 4, then the four numbers in R8C7 (i.e., 4), R7C7, R6C7, and R5C7 all add up to 15).
