

Average Sudoku by clover!

Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). When a gray line appears in a cell, the number in that cell is the average of the two numbers at either end of the line. For instance, the average of R1C1 and R3C1 is 6.

	2		4			8		
6		4						
	8		3					4
7		6						
						3		5
8					4		6	
						2		8
		3			5		4
