

Max-Min Sudoku by clover!

Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Clues on the outside of the grid indicate the sum of the largest and the smallest numbers of the first three cells seen in that direction. (For instance, the R3 outside clue (6) indicates that the sum of the largest number and smallest number out of the rightmost three numbers in that row is 6.)
