

Balanced Killer Sudoku by clover!

Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Also, in each cage, the sum of the odd numbers must equal the sum of the even numbers. Numbers cannot repeat inside a cage. (For example, a 5-cell cage might contain the numbers 2, 4, 5, 6, and 7 as $2 + 4 + 6 = 5 + 7$.)

	4						1	
2			4		3			7
		6				3		
							7	
1								5
	9							
		1				2		
3			8		6			4
	5						8
