

Sum Before Nine Sudoku by clover!

Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Clues outside the grid indicate the sum of all numbers that appear before the 9 in that row or column, looking from that direction. (For example, a row with a clue of "6" to its left might start with values like 249, 1329, or 69.)

	6						2		
5	5		1				3		7
	2						5		
	4						1		
1			6				2		8
	7						6
