

Count Different Sudoku by clover!

Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). The number in each domino-shaped cage indicates how many unique values appear in the surrounding cells (i.e., all adjacent and diagonally neighboring cells to the cage, as many as 10 cells when the cage is in the interior).

		6		4				
	9	5				5		
1	2			7				5
4		3				5		8
				2			7	6
						3	9	
				8		1
