

Neighbors Sudoku (Ordered) by Bill Murphy

Standard Sudoku rules (insert a number from 1 to 9 into each cell so that no number repeats in any row, column, or bold region). Outside clues indicate pairs of numbers which must appear immediately adjacent to each other in the given order within that row or column. (For instance, in the third column, 8 and 1 are in adjacent cells with the 8 immediately above the 1.)

	15	81	26	46	37	38	48
